---

MassLeague was awarded a contract by the Massachusetts Executive Office of Health and Human Services (EOHHS) in 2018 to develop and implement seven community health workforce initiatives as part of MassHealth’s $1.8 billion Delivery System Reform Incentive Payment (DSRIP) Program. These investments to grow statewide capacity across the community-based primary care and behavioral health workforce are intended to support MassHealth’s broader restructuring efforts to increase quality and lower the total cost of care for members.
